

Pub Walks *with Darcy*

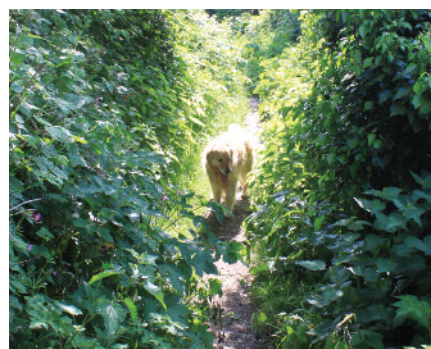

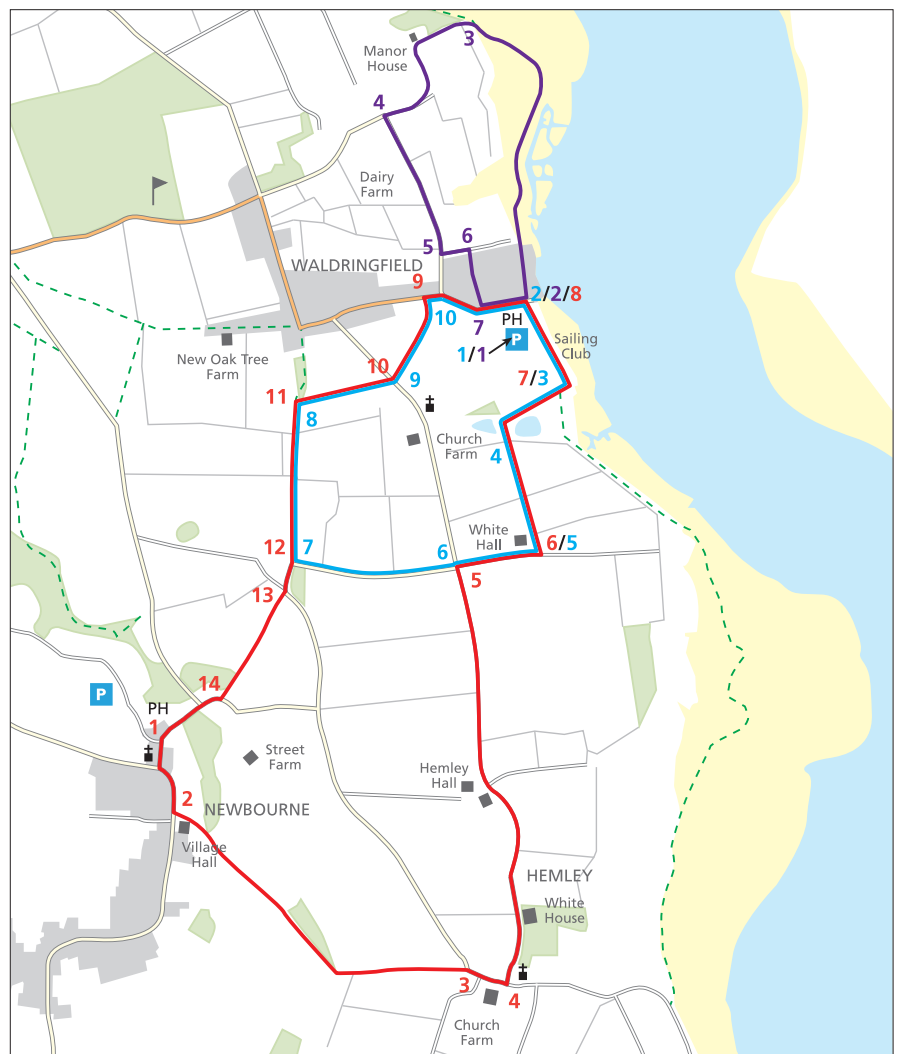

Our Pub Walks with Darcy ‘Collections’ are proving very popular, so this time we’ve brought together three easy-to-follow routes from the Maybush at Waldringfield

We’re incredibly blessed in Suffolk that there are so many well maintained footpaths to follow. Health, woodland, coast, arable land and river banks are all widely accessible and during May and June you’ll see them all at their very best.

The Maybush at Waldringfield, just a couple of miles from Woodbridge, enjoys an enviable position perched on the banks of the Deben with stunning views along the river. It’s a perfect spot for walkers to stop for refreshments as food is served all day every day so there’s no racing against the watch to ensure you’re back before food service closes. Relax and enjoy your walk at your pace and then enjoy all the Maybush has to offer as your four legged friends are also welcome in the bar as well as on the sunny patio.

We’ve mapped three routes; one along the beach and then through the fields above the village with breath-taking views, the second heading up-river towards Woodbridge and the third takes in the sister pub just down the road in Newbourne – The Fox – before winding its way back along the river again.

the walks

OS MAPS: Explorer 197

START POINT OS REFERENCE: 285 445

As always please keep your dog under close control and follow any advisory signs. Before you set off ensure you visit www.essentialsuffolk.com/pub-walks-with-darcy for a printable map and comprehensive instructions for these routes and more than 70 previous walks.

ROUTE 1 Blue Route

If your dog likes to swim there are some lovely opportunities on this walk. The first stretch is along the little sandy beach in front of the pub so, depending on the tide, a first dip could be enjoyed here but beware; at low tide the route to the water's edge will be muddy so you might be best keeping to the lead. Further along the path there's a small reservoir with lovely clear water which Darcy has often enjoyed. If you're following the combined map please take care to only follow the blue numbers.

ROUTE 2 Purple Route

Heading up river towards Woodbridge this is a short walk but enough to work up a thirst. On warm summer days it's often just enough to give your dog a good leg stretch without you (and he) over-heating. There's some good shade too once you leave the river bank. This loop can be easily combined with Route 1 for a neat figure of eight. If you're following the combined map please take care to only follow the purple numbers.

ROUTE 3 Red Route

If you choose to follow Route 3 please note that our printed instructions start and end at The Fox in Newbourne so you'll need to take this into account if starting from The Maybush and instead dive straight in from point 8. It's an ideal way to take in both villages and both pubs with their individual styles and menus but both enjoying the Deben Inns hallmark qualities. When you reach the path between points 4 and 5 take your time to stop and take in the view of the Deben because there's nothing quite like it. If you're following the combined map please take care to only follow the red numbers.

THE MAYBUSH
